Subject: Letter of Reference – ATS Tech Solutions, Inc.- Gainesville, Georgia.

Since being assigned the task of researching and comparing the range of services that could best fulfill our current and future needs for Computer Products and Services, I have determined that ATS significantly outshines all others in our area in terms of reputation, affordability, and support.

We have used ATS on a daily contract basis, and purchased dozens of services, software and computer hardware from them and have been totally satisfied. We are in our 3<sup>rd</sup> year of great services with ATS.

I fully recommend their services and personnel skills in all they do for The Truck Center as well-tested, legitimate, and of high quality.
